

## Walk to freedom

Ashna Shiva was born with a clubfoot condition. Her family faced a lot of challenges due to extreme poverty due to which they weren't able to afford medical treatment. She was diagnosed with clubfoot through the program (DPRP) and was referred to HRDC in Banepa. After three visits, she underwent successful corrective surgery.

With the help of her family and the program (DPRP), she was provided treatment that allowed her to walk confidently. School enrollment and routine home visits were important turning points. Ashna's mother is grateful to the program for its life-changing support, which helped her overcome her challenges and reshape her future.
