

Hopeless ends to endless hopes

Baccha Bahadur Katwal, a resident of Ilam Municipality, lost his right leg below the knee in a road accident. The incident left him struggling to support his family physically and financially. The program (DPRP) provided him with counseling and motivation and he also joined Milijuli Group which empowered him socially and helped him start goat farming.

With continuous efforts from the program (DPRP) and local organizations, Baccha received a prosthetic leg. His return home was celebrated by his community, boosting his confidence. Encouraged by support, he expanded his goat farming business, growing from one to five goats.

Now, Baccha carries loads, contributes financially and is recognized in his community. A simple yet emotional moment was when his daughter gifted him three pairs of shoes. With regular counseling, training, and dedication, Baccha has transformed his life and he no longer sees a hopeless end but endless hope, proving that strength and determination can turn adversity into opportunity.
